**Where:**

Hyatt Regency, New Brunswick  
2 Albany Street  
New Brunswick, NJ 08901

[Driving Directions](#)

Dear Mayor,

**New Jersey's only municipal communications event**

This year's conference plans are already underway and you will not want to miss Power of Partners 5.0.

**A new asset for your municipality**

Conference producer, the Jersey Access Group (JAG), having recently become a **New Jersey League of Municipalities Affiliate** will capitalize on the new resources this relationship provides to enlarge the scope of this year's conference by providing a number of new telecommunication vendors and workshop panelists.

**Understand your communication infrastructure**

We are pleased to announce that the New Jersey League of Municipalities and The National Association of Telecommunication and Advisors (NATOA) will provide assistance in workshop development. We will be expanding the conference structure to include the many telecommunication issues facing New Jersey's Municipalities in areas of: local government communications and Internet policy; broadband planning best practices; social media management, cable franchising and right-of-way; communication taxes; wireless zoning; new technology initiatives and advancements; and communication operation and content distribution including public, education and government (PEG) access television stations.

**When:**

**Wednesday May 7, 2014**

**9:00 AM - 9:00 PM EDT**

**Pre-Conference Workshops  
& Meet and Greet**

**Thursday May 8, 2014**
